

June 19, 1979

Mr. Dean Hoover
1771 N. Link
Springfield, MO 65802

Dear Mr. Hoover,

On Thursday, June 14, 1979 personnel from this office made an inspection of your property to see if the problem of waste oil leaving your property had been corrected. It was found that this problem had been corrected and that a larger waste oil storage tank had been installed to prevent this type of problem from occurring in the future. This action apparently places you in compliance with City, State, and Federal Law.

Thank you for your cooperation and prompt action in correcting this problem. If you have any problems in the future, that we can assist you with, please feel free to call.

Yours truly,

Gene Pabst
Water Pollution Control Inspector
Surveillance & Enforcement
